

<NSObject>

<MQTTFlow>

MQTTInMemoryFlow

```
classDiagram
    class NSObject
    class MQTTFlow
    class MQTTInMemoryFlow
    NSObject <|-- MQTTInMemoryFlow
    MQTTFlow <|-- MQTTInMemoryFlow
```

The diagram illustrates a class hierarchy. At the top, two boxes represent the parent classes: <NSObject> on the left and <MQTTFlow> on the right. Below these, a third box represents the child class, MQTTInMemoryFlow. A horizontal line with upward-pointing arrows at both ends connects the two parent boxes. A vertical line descends from the center of this horizontal line to the top of the child class box, indicating that MQTTInMemoryFlow inherits from both <NSObject> and <MQTTFlow>.
